

What do the Experts Think of Nuvio One?

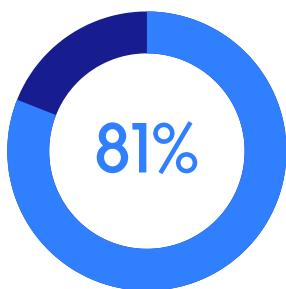

93% of the 121 PTs, OTs, and Rehab Directors who participated in a national market research and in-person testing effort rate Nuvio One's benefits as clearly superior to traditional walker/rollators.

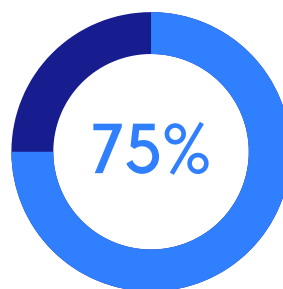

"10/10."

Doctor of Physical Therapy & In-Person Tester

Invented by a Doctor of Physical Therapy, Nuvio One (Patents Pending) features a unique dual-handrail system and thoughtful engineering designed to help users leverage their strengths while removing limitations of traditional walkers such as in transfers, reaching tasks, and navigation of confined spaces. This, in effect, aids the carer's ability to care for and the clinician's ability to treat across functional mobility moments that span from hospital to home.

Of clinicians rated they are extremely/very likely to recommend to patients for home use.

Of clinicians rated they are extremely/very likely to consider purchase for clinical use.

Nuvio is taking an outcomes-based and clinician led approach to assistive device development on a mission to find solutions where traditional devices create barriers. We'll begin accepting pre-orders for Nuvio One in the Fall of 2022.

We'll also be initiating pilot and trial efforts in the coming months with participating partners. If you're interested in partnering with Nuvio in our efforts to optimize mobility from hospital to home, please contact us.
